CBS coverage latest attempt on Ford 9/24/75

Heard Bob Schieffer's "First Line Report" on this from WCBS a little before 6:30 a.m. today. It was about five minutes long, quite detailed. But it made no reference to the woman's having been an FBI informer.

Also heard other WCBS coverage of the same time. Same omission.

CBS AM TV news, ditto. Did not hear entire hour but did hear opening on this, they did cover the story and they did have the same omission.
